André Amorim

Web Developer
Braga, Braga, Portugal

Summary

Hi there, I'm André Amorim, a web developer with over 11 years of
experience creating dynamic and user-friendly web applications.
My journey began in 2014 when I developed websites using Joomla
and Magento, and created my first PHP application from scratch.
Since then, I've specialized in creating websites using WordPress,
developing PHP applications using the CodeIgniter framework, and
building eCommerce solutions using WooCommerce. I believe in the
power of good communication, and I love to collaborate with others
to achieve success. In my free time, I enjoy traveling and exploring
new places, meeting new people, learning about different cultures,
and keeping up-to-date with new technologies.

Experience

Smartgov Group
Web Developer
November 2022 - Present (2 years 2 months)
Braga, Braga, Portugal
